

## THE GRACE CHILDREN'S FOUNDATION™

### Holiday 2020

Dear Friends,

While this year has been filled with upheaval and uncertainty, we are still standing in the midst of light and accomplishment. The Grace Children's Foundation (GCF) continues connecting children in need to pro bono and subsidized medical care and essential non-clinical resources through its case-by-case model. GCF has partnered with innovators at Microsoft and Microsoft Philanthropies to evolve the existing model into the **Children's Resource Exchange (CRE)**—the single portal that will help save the lives of children worldwide.

Abbas and Marita - 2 of the children who lost their pediatric cancer unit at St. George University Hospital in the Beirut blast, but have not lost hope. They send their love to you all.

### COVID-19

Considering the unprecedented challenges brought on by the pandemic, GCF will continue to maintain its global outreach to the degree possible. In response to the Beirut blast in August 2020, the CRE is coordinating care for many of the 110 pediatric cancer patients who lost their stock pile of chemotherapy and their cancer unit at St. George University Hospital.

## 1 TO 1 MILLION

At the same time, in a response to a call to action to help vulnerable children and end social inequity in America, **GCF** will roll out the **1 TO 1 MILLION** campaign in New York City in early 2021. The pilot will address the needs of at-risk children living in NYC by showcasing the **CRE** minimum viable product and accelerating access to vital healthcare resources through the digital platform. In order to maximize the impact of the pilot, **GCF** has partnered with WebMD/ Medscape Pediatrics and other strategic Partners in Healing who play an instrumental role in providing full circle access for children.

### Your Generous Gift

Your gift will help modernize the process of connecting children in need with people and organizations ready to help. NYC's **1 TO 1 MILLION** pilot will provide the underpinning for the **CRE** in NY State, the Tri-States and the United States—benefiting any child of any background living anywhere in the world—scaling the solution to the magnitude of the problem.

**Wishing You and Yours  
A Peaceful, Healthy and Prosperous New Year**
